

Certified Playground Chips

Product Specification

Species: California conifers

Characteristics: Clean, screened wood chips certified for playground use

Description: A safe, clean wood chip product certified for use on playgrounds. This material is a modern, environmentally-friendly solution for safely covering play areas. We guarantee this product does not contain any recycled by-products or chemical additives.

This product meets or exceeds government standards for ASTM-C136 (sieve analysis), ASTM F1292-96 and F-355-95, procedure C (impact attenuation) and 16CFR 1500.44 (flammability). Also meets or exceeds the California public playground standards requirements for wheelchair accessibility ASTM F 1951.
