## **Single Grind Redwood Bark**

### Product Specification

*Species:* Redwood

*Particle Size:* 1" – 3" (95%), up to 6"

*Characteristics:* Fibrous, stringy, and matted

*Description:* A fibrous, stringy, dark red-colored product often referred to as "gorilla hair" because of its unique texture and color. This material works great in a general mulch application, especially in windy areas or sloping terrain. Available in bulk and bagged packaging.
